Professional Summary

- BSc Information Technology graduate from North-West University with hands-on, project-based experience in full-stack development and network design. Skilled in Java, Python, C#, and modern web technologies like React and Node.js. Proven ability to design, develop, and collaborate on end-to-end software solutions. Seeking an internship to contribute technical skills, a problem-solving mindset, and a strong eagerness to learn in a professional environment.

Experience

•

Education

- **North-West University** 2022-2025
Bsc in Information Technology
- **WeThinkCode** 2021-2021
Programming BootCamp

Skills

- Primary Technologies: JavaScript (ES6+), PHP, Flutter (Basic), React, Node.js, MySQL
- Programming Skills: Java, C++, C#, Python,
- Front-End Development : Angular, HTML5, CSS3
- Backend Development : FastAPI, RESTful API
- Tools and Platforms: Git, GitHub, VS Code, Eclipse, Cisco Packet Tracer, Figma,Postman
- Soft Skills: Team Collaboration, Problem-Solving, Agile Methodology, Communication, Research & Analysis
- Concepts: Algorithms, Data Structures, Object-Oriented Programming(OOP), System Design, Networking

Projects

- **TaskMaster - PHP Task Manager System|solo Project|full-stack developer**
 - ClimateWatch- Real-Time Weather Dashboard | Solo Project|Full stack developer
 - Corporate LAN Network Design & Simulation| Solo project| Frontend Developer
 - Tutor Link - Online Tutoring platform | UI/UX Design Project
 - Modern React App - TaskFlow Manager | Solo Project| Backend Developer
 - Backend API - RESTful Service with MongoDB | Solo Project
 - Caffex - Coffee Shop Web Application | Backend & Front End contributor

Experience

- **Freelance Full-Stack Developer|2024-Present**
Built a full-stack task manager with PHP/MySQL featuring secure login, CRUD operations,

priority-based task sorting, and a responsive UI—developed with HTML5, CSS3, JavaScript, and Bootstrap

- **NWU Web dev project|Jan-Nov 2025**

Designed 7 React interfaces with user flows, wireframes, and session management in Figma.

- **NWU Capstone project|Jan - Nov 2023**

Developed a full-stack C#/MySQL web application for online ordering and staff management, implementing secure role-based authentication (customer/admin) with controlled access to order history and inventory modules.

Activities

- Hackathon Participant – Developed a prototype for a community resource app under 48 hours, focusing on UI/UX and API integration.
- Academic Excellence – Recognized for high achievement in Physical Sciences (Grade 11), demonstrating strong analytical and technical aptitude.
