

SKILLS

1= Novice | 2 = Advanced Beginner | 3=competent |
4= Proficient | 5 = Expert

Field and Technology	level
Back-end: Java, Typescript, Python, C++	4
Database Management: SQL, postgresSQL, MongoDB	3
Front-end: React, HTML5, CSS	3
API Development GraphQL, SQL, Node.js	3
OOP, Data Structures	4
Tools & Platforms: Docker, Kubernetes, Postman	2
BMW-Specific Platform: ServiceNow, Miyo, Integrate	2

EDUCATION

University of Pretoria

Bsc Honours in Computer Science
2026-2027

North West University

Bsc degree in Information Technology
2022-2025

WeThinkCode

Programming Boot Camp
2021

Bokamoso Secondary School

Matriculated with Bachelors pass
2020

ACHIEVEMENTS

- Erkurhuleni highest Physical Science Achiever with **100%**- 2018
- Best performing Student with **89%** average - 2019
- 2x Golden key(University of North West) - 2022 & 2023

ABOUT ME

BMW Intern Software Developer with hands-on enterprise app development experience and strong academic performance. Currently pursuing a BSc Honours in Computer Science at UP.

EXPERIENCE

BMW Software Developer
intern(Yes4Youth Programme)

2026-2027

SCP Apps Software development platform

1. Enterprise Application

Development & Maintenance:

- Develop BMW web apps using **TypeScript, React, GraphQL**, and Node.js on SCPapps.
- Build apps with BMW data integration using **MongoDB and PostgreSQL**. We provide **50%** of the work – infrastructure, architecture, and **operational setup**. Users complete the remaining 50% with your custom features and business logic.
- Accelerate development using SCPapps SDK and reusable pre-built components.

2. Testing, Quality Assurance, support, Incident

Management & Defect Reporting:

- Test applications for quality, performance, and reliability.
- Identify, **document, and report defects**, collaborating with teams to resolve issues.
- Troubleshoot and resolve application **creation, GraphQL, and authentication issues** for platform users.
- Manage **ServiceNow support tickets**, ensuring timely **resolution and SLA compliance**.

3. GitHub Advanced Security (WIZ)

- Remediated user-controlled **bypass and remote property injection security findings**.
- Used CWE to fix **vulnerabilities** and prevent unauthorised code access.
- Resolved critical code-level weaknesses to **strengthen application security**.

● Hackathon Participant – Community Resource

2023

- Developed a functional prototype for a community resource app within a 48-hour hackathon.
- Implemented front-end interfaces and integrated third-party APIs, collaborating with a team to deliver a working solution under tight deadlines.
- Demonstrated rapid problem-solving, teamwork, and adaptability in a high-pressure environment.
