Portfolio

- <https://Tiisetso012.github.io/Tiisetso-Mmola-Portfolio/>

Professional Summary

- Recent BSc Information Technology graduate from North-West University with hands-on, project-based experience in full-stack development and network design. Skilled in Java, Python, C#, and modern web technologies like React and Node.js. Proven ability to design, develop, and collaborate on end-to-end software solutions. Seeking an internship to contribute technical skills, a problem-solving mindset, and a strong eagerness to learn in a professional environment.

Education

- **North-West University** 2022-2025
Bsc in Information Technology
- **WeThinkCode** 2021-2021
Programming BootCamp

Skills

- Programming Skills: Java, C++, C#, Python, TypeScript(ES6+)
- Front-End Development : React, Angular, HTML5, CSS3
- Backend Development : Node.js , FastAPI, RESTful API
- Database: MySQL, MongoDB
- Tools and Platforms: Git, GitHub, VS Code, Eclipse, Cisco Packet Tracer, Figma, Postman
- Concepts: Algorithms, Data Structures, Object-Oriented Programming(OOP), System Design, Networking

Projects

- **ClimateWatch- Real-Time Weather Dashboard | Solo Project|Full stack developer**
 - Real-time weather app with OpenWeather API, 5-day forecast, and city search.
 - Cached data with localStorage and built responsive UI with animations.
 - Tech: JavaScript, HTML5, CSS3, REST APIs, Git
- **Caffex - Coffee Shop Web Application | Backend & Front End contributor**
 - Full-stack C#/MySQL app with role-based auth for customers and admins.
 - Agile team collaboration using Git and sprint planning.
 - Tech: React, C#, MySQL, Git, Agile
- **Corporate LAN Network Design & Simulation| Solo project| Frontend Developer**
 - Designed segmented office network with VLANs, DHCP, DNS using Cisco Packet Tracer.
- **Tutor Link - Online Tutoring platform | UI/UX Design Project**
 - Designed 7 React interfaces with user flows, wireframes, and session management in Figma.
- **Modern React App - TaskFlow Manager | Solo Project| Backend Developer**
 - Interactive task manager with drag-and-drop Kanban board and responsive design.
 - Tech: React, JavaScript, CSS3, Git
 - Live Demo:<https://tiisetso012.github.io/tiisetso-mmola-portfolio/modern-react-app-demo.html>
- **Backend API - RESTful Service with MongoDB | Solo Project**
 - Secure REST API with JWT auth, CRUD operations, rate limiting, and Postman docs.

•Tech: Node.js, Express, MongoDB, JWT

Activities

- Hackathon Participant – Actively enrolled in competitive hackathon events, developing problem-solving skills under time constraints.
- Academic Excellence – Recognized for high achievement in Physical Sciences (Grade 11), demonstrating strong analytical and technical aptitude.
